Summary of Legislation: (CCR Amended) This bill makes conforming changes in the statutes concerning the Sales Tax on intrastate telecommunications service and the monthly emergency wireless enhanced 911 fee on wireless service. The bill specifies that implementation of the federal act does not authorize the imposition of new taxes, charges, or fees that are not otherwise authorized by law. It authorizes a provider of wireless telephone service, in the absence of an electronic data base provided by the department of state revenue or another designated data base provider, to rely on enhanced ZIP codes for purposes of assigning customer addresses to taxing jurisdictions. It also provides that "bundled" offerings of taxable and nontaxable wireless service are considered taxable unless the provider of the service provides information that supports the nontaxability of a part of those services.

Effective Date: (CCR Amended) August 1, 2002.

Explanation of State Expenditures: *Background Information on the Mobile Telecommunications Sourcing Act:* Implementing the federal Mobile Telecommunications Sourcing Act (MTSA) will conform Indiana to federal law and clarify the taxing jurisdiction of calls made from mobile telephones. Since Indiana does not tax interstate phone calls, the bill is not expected to have an impact on state Sales Tax revenue. However, if Indiana were to institute a sales tax on interstate calls in the future, the state would be required to adopt the provisions of MTSA in order to collect Sales Tax revenue on mobile phone calls made by Indiana residents outside of the state.

As of September 4, 2001, 14 states have passed the legislation, and others are expected to address the legislation in their upcoming legislative sessions.
